# ALLBROX™

Special valid for sizes 3 - 6D  
(Solid door only)

**MASSIVE  
SAVINGS**

Allbrox is without question the most durable SMC enclosure available worldwide. A unique coating process allows the enclosure to withstand decades of the harshest weather conditions. It is important to remember that the material underneath the coating is also able to endure decades of abuse from the elements. There is no enclosure in the world that will last as long as Allbrox™.

## **“STAND-UP” POOL BOX™**

A challenge that every pool owner is familiar with is the setting of the pool timer. While the complexity of the timer device is well within the grasp of a technology savvy populace, the difficulty in making eye contact with the timer is the main challenge. Allbro has solved this problem with the “Stand-Up” pool box.

PRICE: R21,00**

# SLAB BOX™

**Normal List Price: R48,62**

Protective cap and Hole saw not included in special

Launched early in 2018 the new Slab Box by Allbro is the first new product to be introduced for this application since the inception of down lights. The new concept uses the same GRP material as the other products but for a different reason. Obviously these boxes are not exposed to UV sunlight. They are however exposed to vast temperature range fluctuations as they house a variety of LED lamps. GRP does not burn or melt like plastic and is also safe for use in electrical installations where a faulty cable connection can create temperatures much higher than any LED lamp ever could.
