

Pre-cut tie down holes

Optimum seal on lid ensuring zero concrete permeation

**FREE** holesaw with your first purchase of 20 or more Slab boxes (Normal price R38,00 each)

Install conduit above line

Made from GRP (Glass Reinforced Polyester)

Fits multiple downlight dimensions

Mounting plate

# SLAB BOX

Traditional metal Slab boxes currently in use in South Africa pose a varying number of complications when installing. Inconsistent knock outs, poor quality tack welds, difficult alignment process and inconsistent mesh/steel surfaces that can be difficult to plaster.

Allbro's new SLAB BOX solves these challenges whilst still offering the benefits of a GRP electrical enclosure. It will offer a single box with three diameter options, no pre-defined knock outs, simplified alignment, easy and tidy plastering.

- **NO** PRE-DEFINED KNOCK-OUTS
- **NO** EXTRA PLASTERING
- **NO** MULTIPLE DIAMETER BOXES NEEDED
- **NO** DIFFICULTY ALIGNING

IT'S SIMPLE **ONE BOX**,  
AND A **PERFECT FIT EVERY TIME!**

## THE PROCESS:
